

Netarx [net'-arks]

NOUN: net•arx, def. network fortress or stronghold

Equipment Colocation

Do you need to focus on growing your business instead of focusing on IT outages? Netarx Equipment Colocation can provide the high-availability your customers expect. We provide cost effective Tier-3 Data Center space in a fiber rich area.

Flexible Facilities

- Tier 3 - High Availability
- Equipment Co-location
- Access to 50 + Carriers
- 100,000 + Square Feet
- Scalable connectivity
- Redundant Power Grids

Additional Optional Data Center Services

- Hosted Applications / SaaS
- Data De-duplication / Back-up / Archive
- Virtualization / Consolidation
- Redundant Data Center / Parallel Computing
- Business Continuance / Disaster Recovery
- Communication Services

Colocation Consideration

The Uptime Institute states that it typically costs 7 million dollars to build a 2000 square foot Tier-3 Data Center (exclusive of the computing and networking hardware).
